RECIPROCITY

"Did you ever stop to think," said one philosopher to another, "that one half the world doesn't know how the other half gets along?"
"It's right you are," was the answer, "and neither does the other half in these times."—Evening Post.

ACCOUNTANCY TALKS AND DEFINITIONS NUMBER 1

What Is Accounting?

"IT IS the science of recording and stating facts in relation to the acquisition, production, conservation and transfer of property rights or values."—H. S. Pace.

TWO principal objects of accounting are: First, to record in permanent form every transaction so explicitly that its exact nature can be perceived instantly. Second, to classify the accounts in such a manner that the total result of the transactions for any given period can be ascertained.

EXCESS WATER IS ACCEPTED BY OWNERS OF 30,000 ACRES

Land Owners Organize; Express Gratitude for Work of Water Users' Association and Prepare to Co-Operate

At a meeting of men interested in the 30,000 acres of land about to become fruitful under the new ruling of the department of the interior permitting the sale of excess water, an organization was effected yesterday and the land owners settled down to business. The temporary president was H. B. Wilkinson and the secretary F. W. Griffin.

All that was accomplished is contained in the following unanimously adopted resolution:

"Be it resolved, by the owners of all those lands included within the Salt River valley project of the United States reclamation service, but not yet assured of permanent reservoir water—usually spoken of as the 30,000 acres—in meeting assembled at the Water Users' building, in Phoenix, Ariz., April 24, 1915, that we do hereby express to the board of governors of the Salt River Valley Water Users' Association, our high appreciation of the action of said board taken on Monday, April 12, whereby it invited us to appoint a committee to assist the board of governors and the Water Users' Association as a whole in working out a plan under which said 30,000 acres may secure permanent reservoir rights, and to appear before said board and be heard upon all questions affecting the interests of said lands, and in general to represent the cause of said lands. Be it further

"Resolved, that we accept said invitation and appoint such committee, but that in so doing we do not wish to be understood as in any way taking the representation of said lands into our own hands or relieving the board of governors or any of its members of their obligation and duty toward said lands and toward us as members of the Water Users' Association; but that we at all times desire and expect said board of governors, the Water Users' Association and all of its officials and members to advance the water interests of said lands in every way possible; and that our only purpose and desire is to co-operate and assist in finding an acceptable solution of the questions involved. Be it further

"Resolved, that our aim is constructive and not destructive; the upholding and attaining of the rights to which we may be entitled, and not the tearing down or infringing upon the rights of any of our fellow members of the Water Users' Association; at all times upholding and advancing the best interests of the valley at large; and at all times working without friction and in harmony with said board of governors, the Water Users' Association and its officials, the department of the interior and all officials, commissions, committees or representatives of said

department and reclamation service. And be it further

"Resolved, that the committee herein mentioned present this resolution to the board of governors and send a copy thereof to the secretary of the interior, to the members of the commission at Washington, to the members of the board of survey and to the local reclamation office."

It was carried that the chair appoint a committee of five, of which the chairman shall be one member, which shall be authorized to represent the members of this meeting, before the board of governors of the Salt River Valley Water Users' Association and the United States reclamation service, as recommended in the resolution just passed, and to do any and all things necessary and requisite for the best interests of the land owners here present and all others similarly situated.

It was decided that the chair appoint a finance committee of five, with authority to levy and collect assessments against the 30,000 acres of land not now being served with regular water to cover the necessary expense incurred by the general committee just appointed in securing data and generally representing the interests of such land owners, and to audit and pay all expenses incurred.

The chair announced that the appointment of the two committees would be made at a later date, after he had opportunity to consult with the land owners present.

The meeting was then addressed by President Orme of the Water Users' Association; W. A. Farish and Frank H. Parker, members of the board of survey, and a number of others on topics pertinent to the subject at hand.

MISS ROSS FORMALLY NOMINATED SPONSOR

In formal compliance with Governor Hunt's appointment of Miss Esther Ross of Prescott as sponsor for Arizona at the christening of the battleship Arizona next June, a letter was received yesterday from Secretary Daniels of the navy, advising the governor that Miss Ross had been nominated to the commandant at the Brooklyn navy yard as sponsor for this state.

Seven additional members of the committee named to attend the launching were announced yesterday by Governor Hunt. They are: T. G. Norris, of Prescott; Harry Tittle, of Phoenix; Herndon J. Norris, of Charlotteville, Va.; Oscar K. Goll, of Douglas; Wm. J. Norris, of New Haven, Conn.; Harry B. Calisher and Hon. M. C. Hankins, of Douglas.

FINANCES AND MARKETS

[ASSOCIATED PRESS DISPATCH]
NEW YORK, April 24.—The stock market developed unexpected strength in the latter half of today's short session, closing buoyantly under the lead of United States Steel. That stock was the dominant feature, gaining two points to the accompaniment that the government suit would soon be decided upon reasonable terms. Coppers held the prominence throughout. Mexican Petroleum broke all records, making a gain of four and one-quarter points, a confirmation of a selling agreement with large British interests. Reading, Union Pacific and others shared in the movement. The bank statement showed a reserve increase of \$13,000,000. Loans expanded \$10,000,000. Stock sales today amounted to 455,000 shares. Bonds were irregular, sales amounting to \$2,650,000. Government bonds were unchanged.
